PROFESSIONAL SUMMARY

Highly motivated Computer Science undergraduate with strong skills in web development, data structures, and problem-solving. Experienced in building real-world projects including recommendation systems, real-time applications, and full-stack web platforms. Seeking an entry-level software developer role to apply technical expertise and contribute to organizational growth.

EDUCATION

Bachelor of Technology in Computer Science 08/2022 – Present
Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh

EXPERIENCE

Software Developer — Personal Projects 01/2024 – Present

- Developed and deployed 5+ full-stack applications including chat app, e-commerce platform, and recommendation system.
- Applied data structures and algorithms to improve performance and efficiency of applications.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Development: HTML, CSS, JavaScript, Node.js

Database: MySQL

Tools & Technologies: Git, GitHub, Streamlit

Core Concepts: Data Structures and Algorithms, OOP, DBMS

PROJECTS

- **Portfolio Website** *HTML, CSS, JavaScript*
 - Developed a fully responsive portfolio website improving UI/UX and reducing load time by 30%.
- **Movie Recommendation System** *Python, Pandas, Scikit-learn, Streamlit*
 - Built a recommendation engine using cosine similarity on 5000+ movie dataset for accurate suggestions.
- **E-Commerce Website** *HTML, CSS, JavaScript, Node.js*
 - Developed dynamic platform with authentication and product filtering for multiple users.
- **Real-Time Chat Application** *Node.js, Socket.IO*
 - Enabled real-time multi-user communication with low latency using WebSockets.
- **Automatic Timetable Generator** *Python*
 - Automated scheduling system reducing manual effort using constraint-based logic.

CERTIFICATIONS

- **Deep Learning Certification — Intellipaat (2026)**
 - Learned fundamentals of neural networks, backpropagation, and deep learning models.
- **Python Certification — Intellipaat (2026)**
 - Gained strong understanding of Python programming, data structures, and problem-solving.
- **Data Structures and Algorithms Course**
 - Learned core concepts including trees, graphs, and dynamic programming.
- **Web Development Certification**
 - Built responsive web applications using HTML, CSS, and JavaScript.
- **Introduction to Prompt Engineering with GitHub Copilot — GitHub (2026)**
 - Learned prompt engineering techniques and AI-assisted code generation.
- **Introduction to Generative AI Studio — Google (2026)**
 - Explored generative AI concepts and real-world applications.
- **Data Analyst 101 (2026)**
 - Learned data cleaning, visualization, and data-driven decision making.

ACHIEVEMENTS

- Developed and deployed 5+ real-world projects demonstrating full-stack and problem-solving skills.
- Strengthened analytical thinking through consistent implementation of data structures and algorithms.

LANGUAGES

- English (Professional)
- Hindi (Native)
