SUMMARY

Full Stack Developer and Computer Science graduate with hands-on experience building **RESTful APIs, authentication systems, database-driven applications, and responsive web interfaces**. Proficient in **HTML, CSS, TailWind, JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, and Mongoose**, with strong foundations in **Data Structures, OOP, DBMS, Git, REST APIs, and problem solving**. Experienced in developing full-stack web applications, implementing secure authentication, integrating APIs, building reusable frontend components, debugging applications, and working with version-controlled development workflows.

EDUCATION

Bachelor of Technology – Computer Science and Engineering

May 2022 – May 2026

Feroze Gandhi Institute of Engineering and Technology, Raebareli, Uttar Pradesh

CGPA: 7.6/10

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, DOM Manipulation, Component-Based Architecture

Backend Development: Node.js, Express.js, REST APIs, RESTful APIs, JWT, Authentication, Authorization, Middleware, API Validation

Databases: MongoDB, Mongoose, SQL, Database Design

Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Problem Solving, Debugging

Developer Tools: Git, GitHub, Postman, VS Code, GitHub Copilot

PROFESSIONAL EXPERIENCE

Intellipaat

Web Development Intern 07/2025 – 07/2026

- **Built** responsive web development projects using HTML, CSS, JavaScript, and TypeScript, implementing interactive client-side functionality and responsive layouts.
- **Developed** frontend features using JavaScript, TypeScript, DOM manipulation, event handling, reusable components, and browser-based web development techniques.
- **Configured** Linux development environments and used shell commands for common software development and debugging tasks.
- **Managed** source code and repositories using Git and GitHub while following version-controlled development workflows.
- **Debugged** frontend functionality and resolved application issues while applying software development and web development best practices.

PROJECTS

1. TaskFlow – Project Management Platform

React.js, Node.js, Express.js, MongoDB

- **Engineered** a full-stack project management platform using the MERN stack with project, task, subtask, team member, progress tracking, and activity management workflows.
- **Architected** secure JWT authentication with access/refresh tokens, HTTP-only cookies, bcrypt, protected routes, email verification, password recovery, and centralized API error handling.
- **Designed** a reusable React frontend and modular REST API architecture using Context API, React Router, Axios, Tailwind CSS, Express middleware, and Mongoose models, with planned enhancements including RBAC, real-time collaboration, analytics, notifications, testing, and CI/CD.

2. Currency Converter

React.js, Vite, Tailwind CSS, ExchangeRate API

- **Developed** a responsive currency conversion application integrating ExchangeRate-API to retrieve dynamic exchange rates and support real-time conversion across multiple currencies.
- **Implemented** a custom React Hook for API data fetching along with reusable components, controlled inputs, dynamic currency selection, state-driven rendering, and seamless currency swapping.
- **Enhanced** the application with a component-driven architecture and production-ready development workflow using Vite, Tailwind CSS, and ESLint, with planned improvements including secure API configuration, error handling, conversion history, accessibility, and automated testing.

3. E-Commerce Website

Next.js, TypeScript, Node.js

- **Developed** a full-stack e-commerce application using Next.js and TypeScript with product browsing, filtering, authentication, and shopping workflows.
- **Built** reusable, type-safe frontend components and responsive interfaces while integrating dynamic application functionality and backend APIs.

4. Expense Tracker

HTML5, JavaScript, Tailwind CSS

- **Engineered** a responsive personal finance dashboard using HTML5, JavaScript (ES6+), and Tailwind CSS 4 to track income, expenses, balances, categories, and recent transactions through an intuitive interface.
- **Implemented** event-driven transaction management with JavaScript DOM manipulation, dynamic UI rendering, state updates, conditional transaction logic, category-based entries, and real-time calculation of income, expenses, and available balance.
- **Enhanced** application reliability and user experience with insufficient-balance validation, reusable UI patterns, responsive layouts, light/dark theme switching, interactive states, and a production deployment on Vercel.

5. Razorpay Clone

HTML, Tailwind CSS, JavaScript

- **Engineered** a responsive fintech landing page inspired by Razorpay using HTML5 and Tailwind CSS v4, recreating modern payment, banking, product, pricing, and call-to-action experiences with a utility-first architecture.
- **Built** reusable, mobile-first UI sections including navigation, hero, payment suite, business banking, product showcases, and responsive card layouts, incorporating hover interactions, custom typography, gradients, and scalable styling.

6. Movie Discovery System

JavaScript, TMDB API, HTML, CSS

- **Integrated** the TMDB API to retrieve movie ratings, posters, genres, backdrops, and trailer information.
- **Implemented** search, genre filtering, dynamic API requests, DOM rendering, and Local Storage watchlist functionality.

7. MyPortfolio

Next.js, TypeScript, Tailwind CSS

- **Designed and developed** a responsive personal portfolio using Next.js, TypeScript, and Tailwind CSS to showcase projects, technical skills, certifications, and professional information.

CERTIFICATIONS

- **Introduction to Prompt Engineering with GitHub Copilot** – GitHub, 2026
- **Introduction to Generative AI Studio** – Google, 2026
- **Deep Learning Certification** – Intellipaat, 2026
- **Python Certification** – Intellipaat, 2026
- **Web Development Certification** – Intellipaat
